RECORDS & SOFTWARE

CHURCH ACCOUNTING SOFTWARE

Some questions to ask yourself in selecting your church accounting software:

1. What is your church's budget for accounting software?
2. How much does technical support and program updates cost?
3. Do you need accounting software specifically designed for churches or will an off-the-shelf accounting package do?
4. How user-friendly is the software?
5. Do you need payroll capabilities? Will it integrate with your current or future payroll software?
6. Will the software package require additional hardware?

Church Accounting Software's tracks your church congregation, happenings and giving. It handles the church receipts and disbursements, its budget and its employee payroll. Church software package that consists of a number of programs that can be used alone or as a unit. The five modules currently include:

- Membership
- Scheduler
- Contribution
- Accounting
- Payroll

The software organizes membership, contributions, accounting, events, and general record keeping, with one complete package. You can account for contributions, maintain payroll, track your budget and automate your accounts payable and receivable. It provides small to large churches with an affordable, easy solution to track: memberships (unlimited), groups, events, contributions, attendance and much more with no security so you can modify to fit your church needs then add security easily at a later time.
